

## Your Guide to Rattan with Designs of Distinction®

Open Weave Rattan is available as sheets (shipped in rolls) or cut, soaked and stretched to your exact specifications resulting in a beautiful, airy insert for all of your furniture and cabinet applications. Choose from natural or bleached in 2 styles. Rattan will stretch over time if subjected to pressure so it is best to use with either a glass or wood backing to ensure the integrity of the design. Hand woven in Vietnam, our Rattan maintains its natural characteristics so it will fade and dry over time if exposed to heat and light.
