Designer and Cut-to-Size Materials Line Continues to Grow

(Chicago, IL): Designs of Distinction's [DOD] line of Designer and Cut-to-Size Materials continues to grow. Since DOD introduced its first Cut-to-Size Material – Decorative Grilles – in 2019, the line has more than quadrupled and now includes materials like Rattan, Leather, Resin, Italian-made Mesh, and more. Additionally, DOD has introduced several new materials as components, including Metallic Trim, flexible and solid Tambour profiles, decorative brass hardware, and more.

For materials like Decorative Grilles & Mesh, Rattan, Leather, Italian-made Mesh, and more, DOD offers a “Cut-to-Size” program. Measure and send your panel sizes to DOD and a quote will be provided for Cut-to-Size panels that are ready to install upon delivery. Decorative Grilles and Mesh can be difficult to work with on-site as Decorative Grille panels are not welded and extremely sharp. Reduce the chances of ruining expensive product on the job site by taking advantage of the Cut-to-Size program.

Furthermore, Cut-to-Size materials are available to purchase as individual sheets (or rolls). DOD's Cut-to-Size Materials are featured in the 2023 Product Catalog on pages 14-18.

Other Designer Material components – including Metallic Trim, Tambour, Decorative Hardware, and more – are available in a variety of sizes, species, and finishes. DOD's 2023 Product Catalog outlines these Materials on pages 7-13.

With the expansion of DOD's Materials line, DOD offers a wide range of Sample Kits for Designers, Builders, and other Trade Professionals to test and color match new products. Sample Kits for Decorative Grilles and Mesh, Tambour, Metallic Trim, and more are in stock and ready to ship today!
