Designer DripEdge[®] Profiles for Garbage Can Pull-Out Doors

(Chicago, IL): Designs of Distinction's new Designer DripEdge[®] profile is the latest addition to its metallic trim line of products. Created to protect garbage can pull-out doors from splatters, drips, and messes, the DripEdge trim comes in 4 sizes and 3 finishes.

The angled trim pieces were designed specifically to fit over the top edge of garbage can pull-out doors. These 7/8" angles provide a 1/32" edge on the face, which means drips, splatters, and cleaning solutions don't sit on the top of your door.

Available in 4 widths, designed to fit both 15" and 18" standard and full overlay doors, Designs of Distinction's DripEdge Profiles come in flat black, satin brass, and brushed aluminum finishes and feature an ultra high-bond tape for easy installation.

The Designer DripEdge[®] is available TODAY! For more information, please visit:
