Now Offering 2 New Metallic Finishes

(Chicago, IL): Designs of Distinction's line of Metallic Accents continues to grow! In addition to 5 existing metallic accent finishes, Designs of Distinction [DOD] has added 2 new finishes – Satin Stainless and Polished Brass.

DOD's line of Metallic Accent components includes decorative trim, bars, straps, L-channels, sleeves, and ferrules. From bright chromes to brass to black, Metallic Accent components now come in 7 finishes.

All aluminum Metallic Accent components match each other, so trim can pair with sleeves and other components seamlessly. For example, a Warm Bronze L-channel will match a Warm Bronze sleeve.

DOD's Metallic Accents are made from anodized aluminum. Durable in structure and finish, aluminum components can withstand kitchen and bath messes. Aluminum components will not chip, peel, rust, corrode, or fade.

Anodizing aluminum is an eco-friendly process, as aluminum itself is a sustainable material with a "cradle-to-cradle" lifecycle.
