### Elevate Your Designs with Built-to-Order Cantilever-Style Bistro Shelving

**(Chicago, IL):** Designs of Distinction's [DOD] line of Brass Bistro Shelving now includes Cantilever-style arms, poles, and fittings. Designed for adjustability and strength, the new Cantilever-style Bistro Shelving is easy to assemble with included set screws.

DOD's new Cantilever Bistro Shelving offers a less complex means of hanging shelves using adjustable arms with set screws. Made from real lacquered brass, DOD stocks Cantilever Bistro components in Satin Brass and Polished Brass.

Custom finishes include Antique Brass, Oil Rubbed Bronze, Satin Nickel, Polished Nickel, Antique Copper, Satin Copper, Polished Copper, and Flat Black.

DOD's Bistro Shelving began when several trends merged in the Kitchen; open shelving, metallic accents, and high-end custom design, to name a few. Realizing there was a lack of supply and custom programs for Brass Bistro Shelving, DOD tested dozens of components and finishes, adapting the program as new trends emerged.

With two stock kit options – three shelves or four shelves – Cantilever Bistro Shelving is ready to ship today!

Please visit the links below to learn more about DOD's Cantilever Bistro Shelving. Custom Bistro Shelving Kits can be requested from the product page:
